SEOmatic

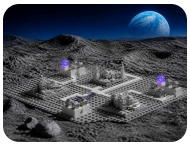

A note from your web designer

Your website is live. Here is how it keeps getting found on Google.

A new site does not improve on its own. SEOmatic's AI agents work on it after launch: they read your Google data, make the changes on the site, and show you what moved.

WHAT SEOMATIC DOES

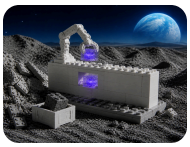

Reads your Google Search Console

It starts from the searches your site already shows up for.

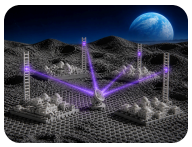

Picks the work worth doing

A short list of fixes and page updates, in the order worth doing.

Makes the changes on your site

On WordPress, Shopify, Webflow and the other platforms it connects to.

Shows what moved

Daily rankings for the searches you track, your spot on Google Maps, and whether AI answers like ChatGPT name your business.

WHAT IT COSTS

New to SEOmatic? **14-Day Trial for $1, credited to your first payment.** Then plans start at $99 a month, billed to you directly by SEOmatic. Your web designer never handles your payment.

WHAT YOU DO

Create your account from the link below, then connect your website and your Google Search Console. The agents prepare the changes, and you decide what ships.
