FOR BUSINESS OWNERS

Your site is live. 5 things to do in the first month

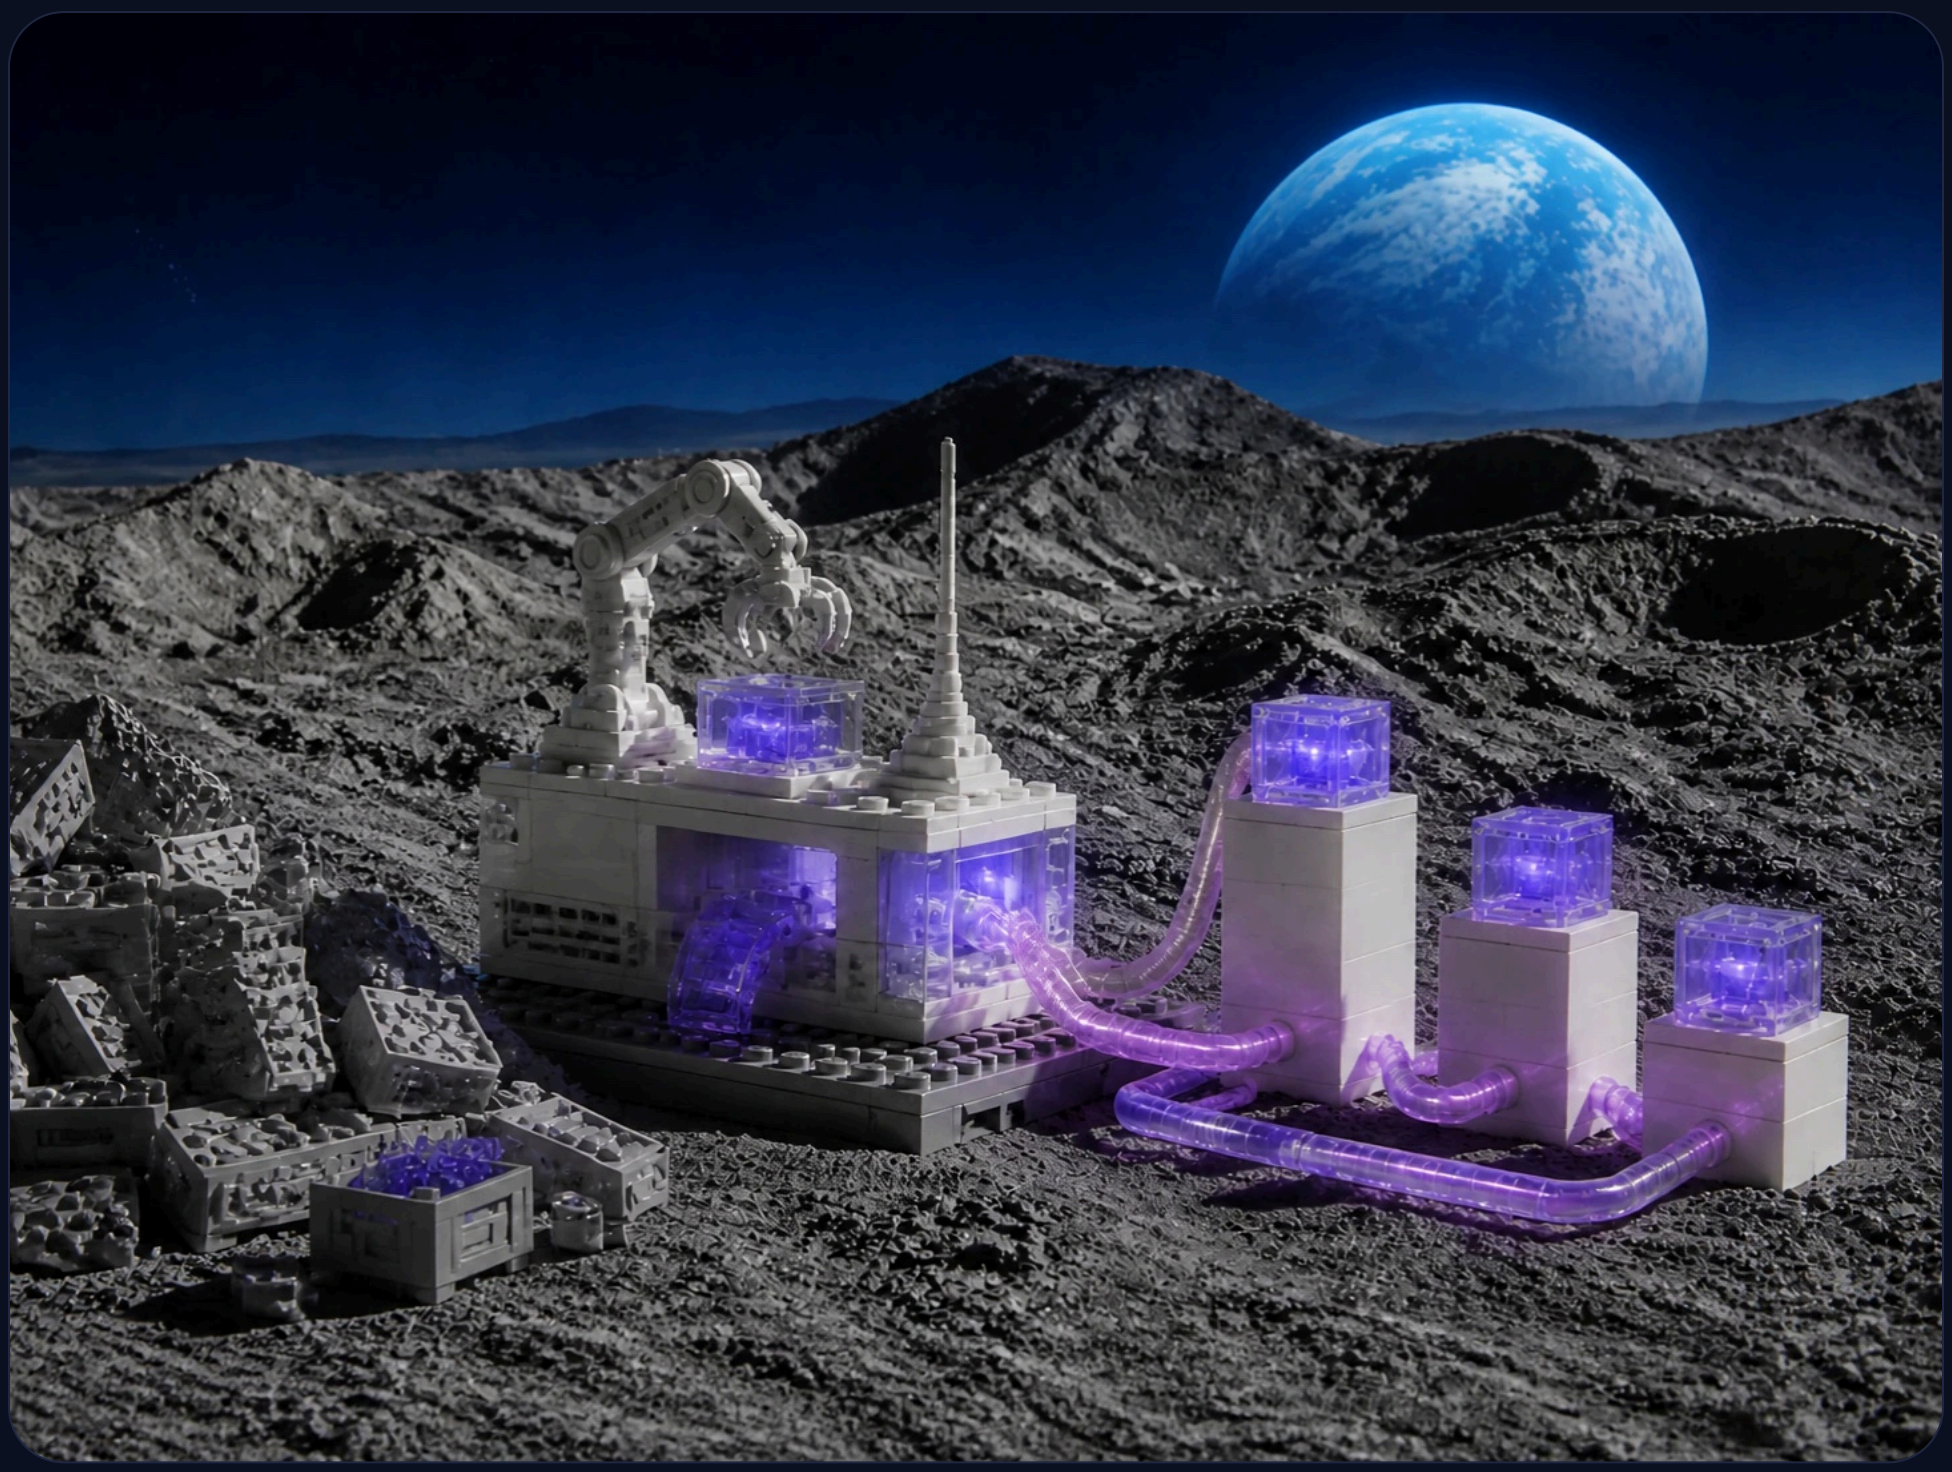

So it starts getting found on Google. Swipe through.

1

Connect Google Search Console

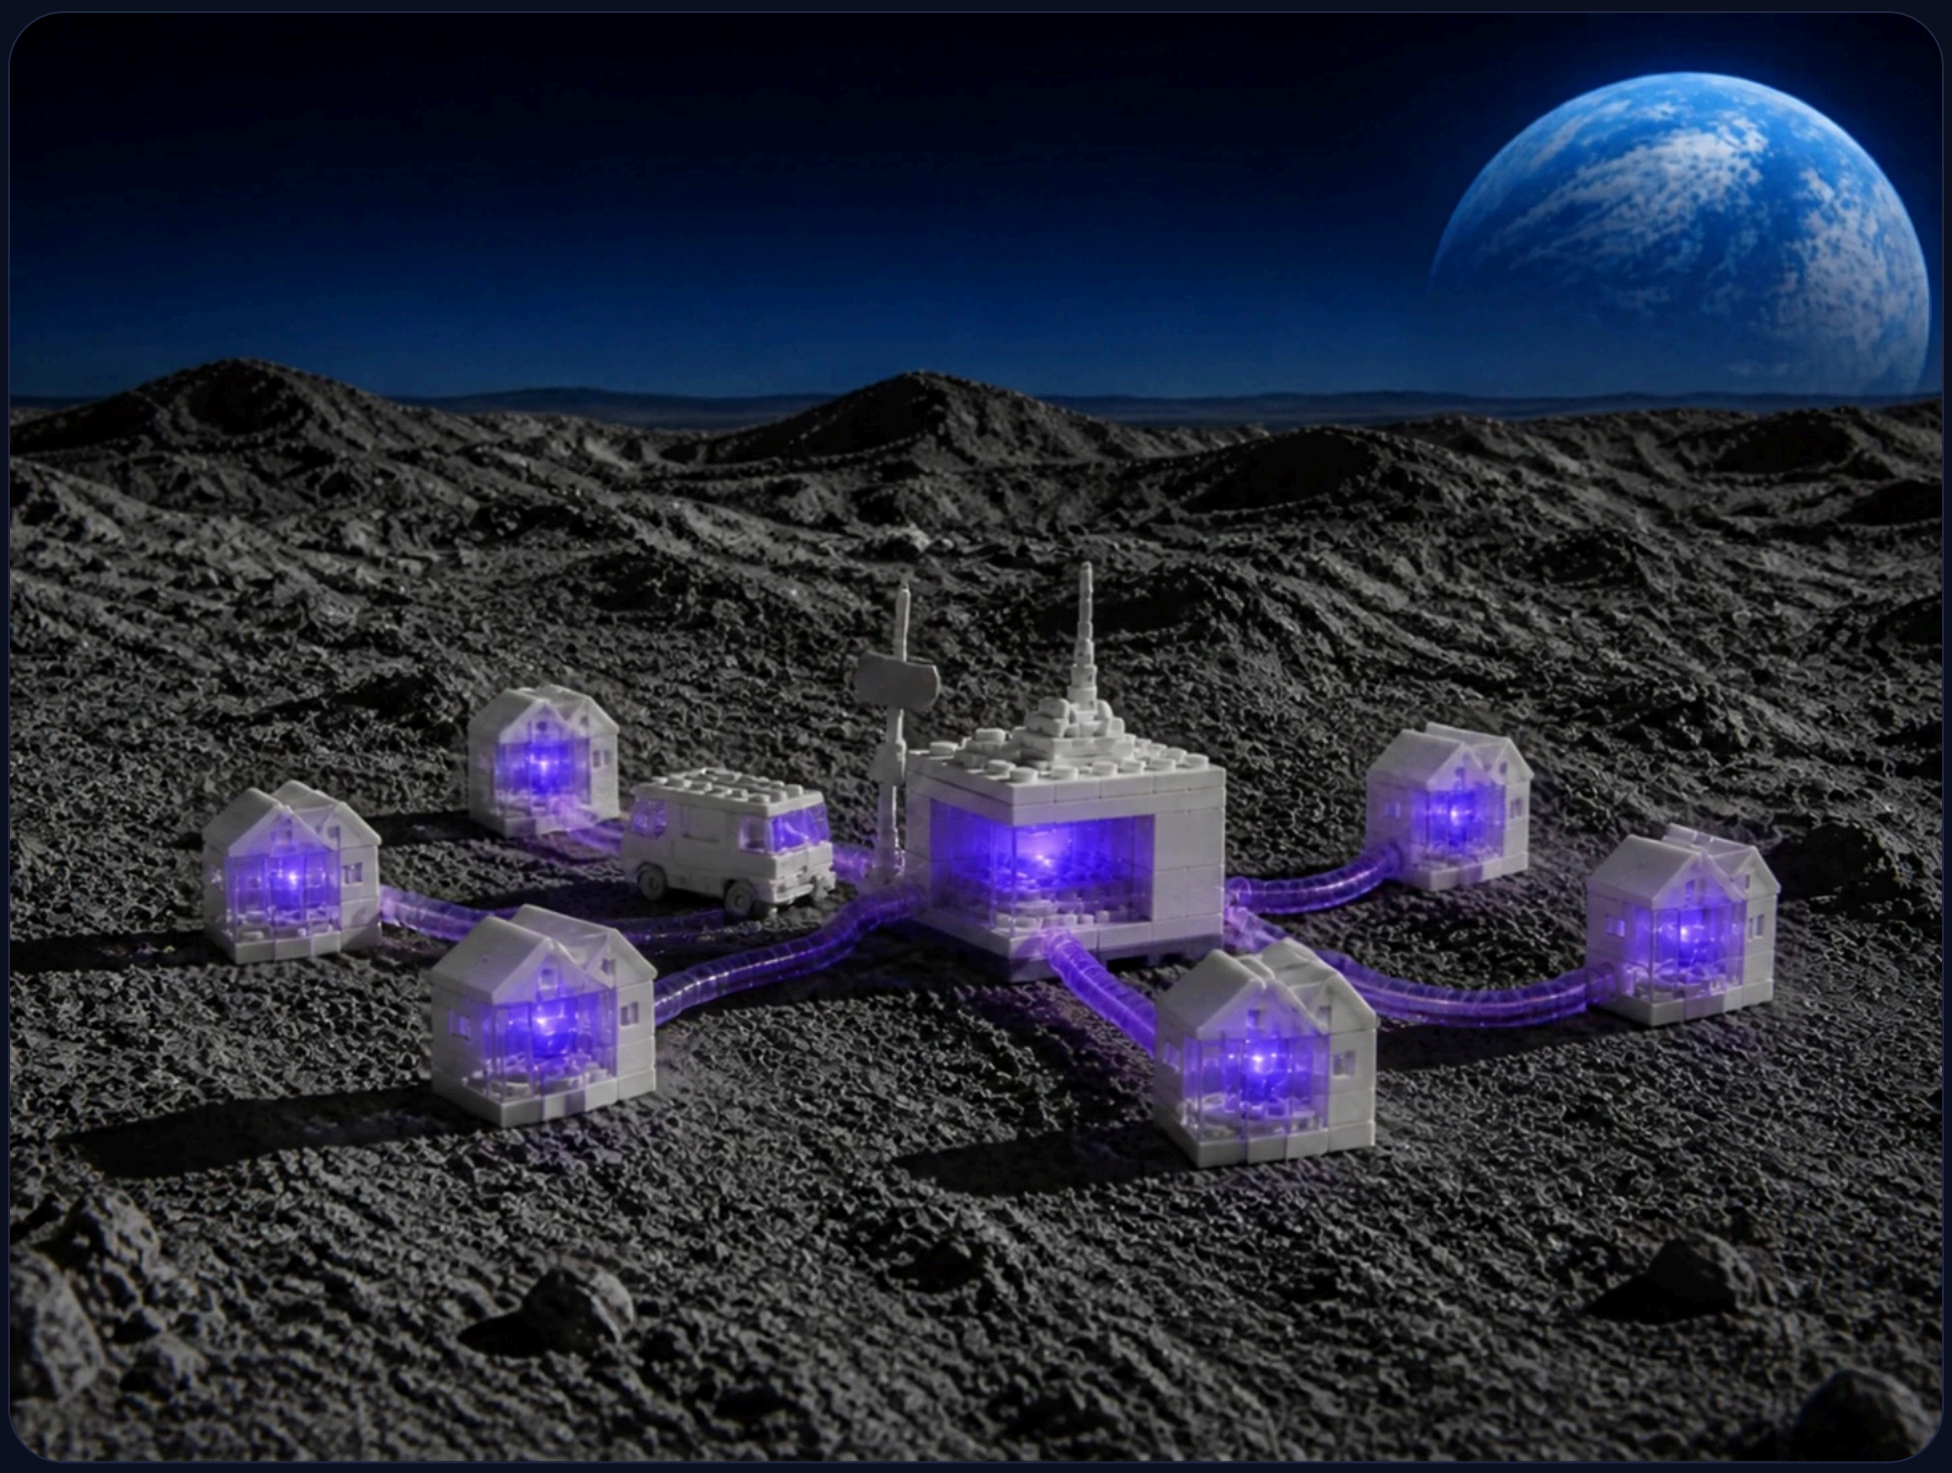

It is free, and it shows the searches your site already appears for. Submit your sitemap there too.

2

Give every page its own title and description

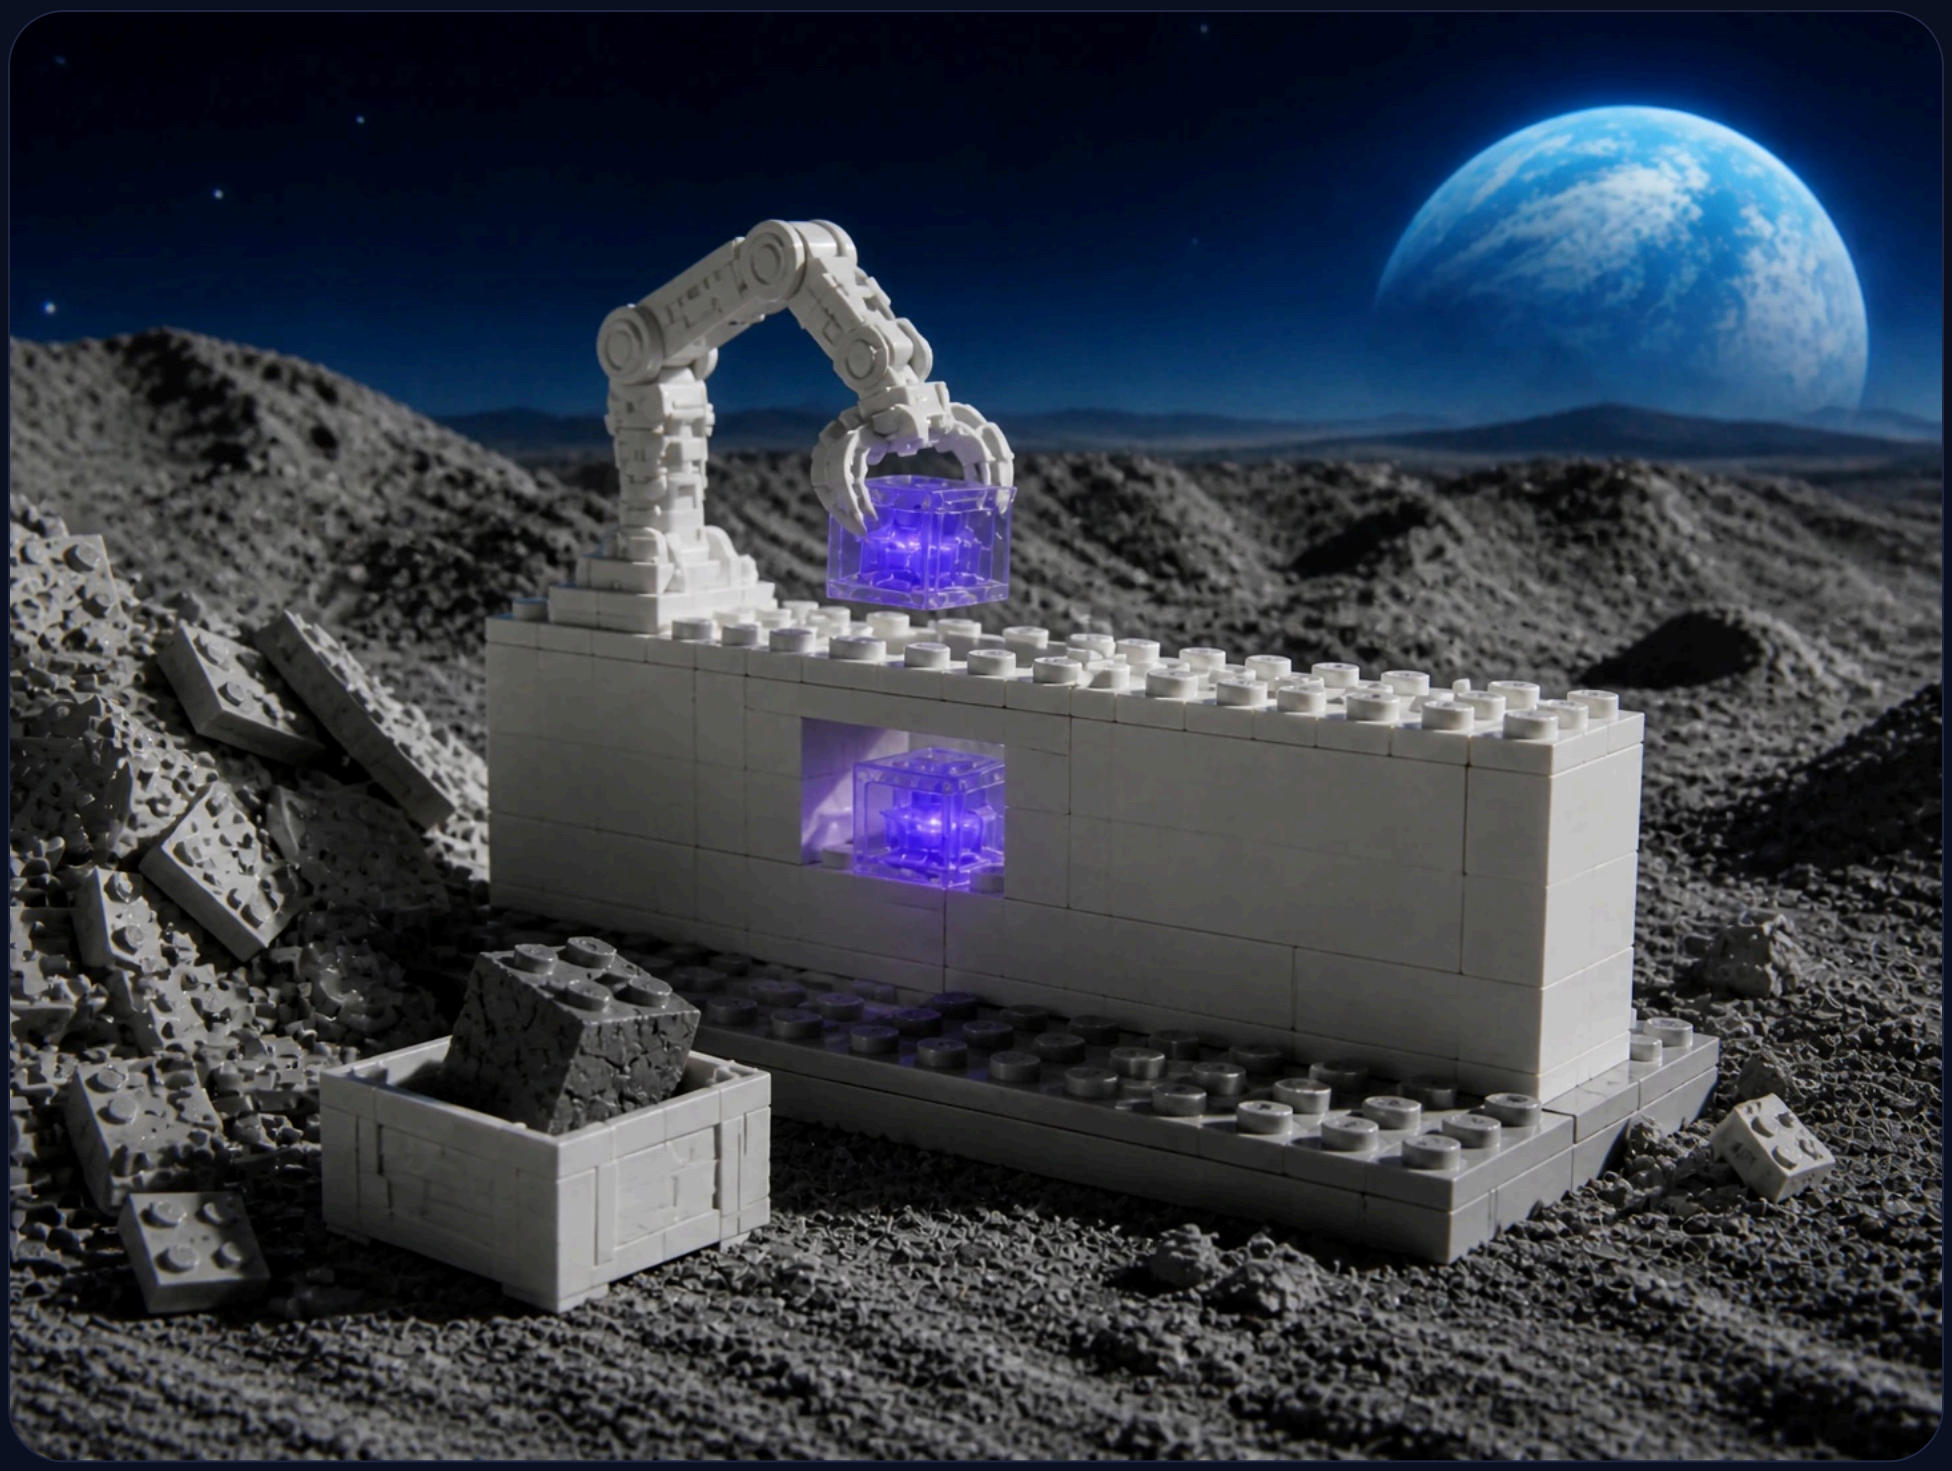

Say what the page offers and where. Duplicates confuse Google.

3

Set up your Google Business Profile

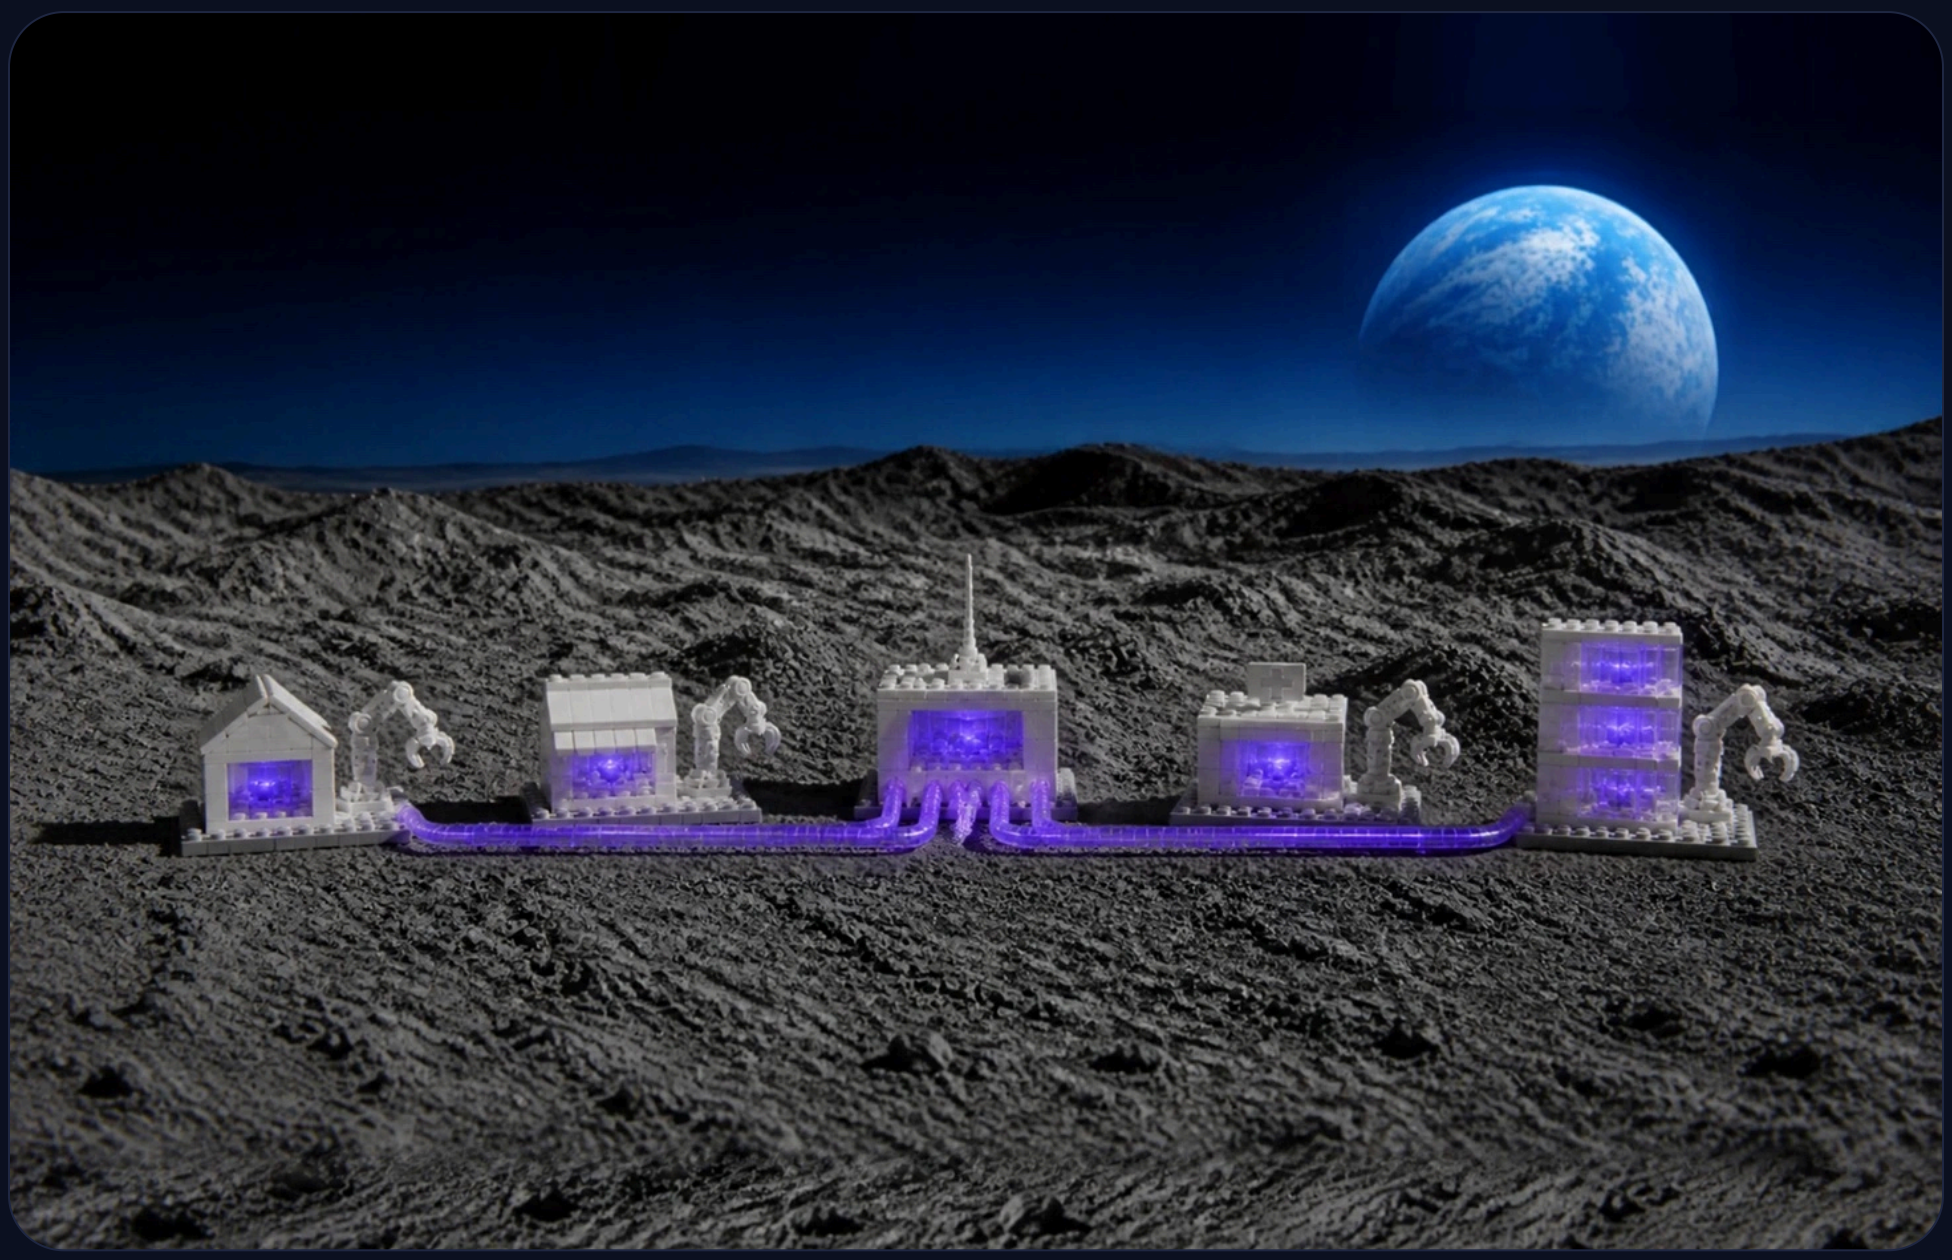

Same business name, address and phone as on your site, so Maps and your site agree.

4

Improve the pages that almost rank

Search Console shows searches where you sit just off page one. Those pages are the quickest wins.

SHORT ON TIME?
